To David S. Guzy  
re: Electronic Reporting

Dear Mr. Guzy,

This is in regard to the proposed regulations to require reporters to submit production reports electronically. Although we understand that this would simplify processing, we would request to continue to do the reports as we have in the past. We are a very small company without a computer. If the price of oil continues to fall at the rate it has been, we may not even be a small company. It would also not be possible to pay someone to do this job electronically for us. We thank you for keeping the small oil companies in mind when you make these decisions.

Sincerely,

Leland F. Bertagnole
