

September 27, 1999

Dave:

The enclosed map (I've included 2 copies for your further use) contains the field outlines, lease numbers, unit names, operators, platforms and pipelines. Where appropriate, I've added the field names when multiple fields are within a single unit. I've also edited the operatorship changes that have occurred on Platforms Gail & Grace; Chevron to Venoco.

- 
- 
- Sacate Field in the Santa Ynez Unit has just completed its first well and is now coming on production. The field is being drilled from Platform Heritage.
- On the horizon we anticipate some additional change of operatorships:
 - ✓ At the Beta field; Aera to BreitBurn
 - ✓ At Point Arguello Field; Chevron to Arguello Inc. (A new company created by Plains Resources)

Let us know if you need any additional information or if you need clarification of anything included here.
